EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Keith W. Saunders, Reg. No. 41,462 on January 26, 2006.

2. The application has been amended as follows:

In the claims:

I. In claim 24:

a) line 7, after "device" insert – configured to receive portions of the data bitstream that includes object-media information --;

b) line 10, after "services" insert -- by discarding, within the network, one or more of the portions of the object-based information, --.

II. In claim 47:

a) line 6, replace "the portions" with – portions --;

b) line 7, after "information" insert – and discarding one or more of the portions of the object-based media information --;

Art Unit: 2152

c) line 10, replace "." with --, wherein the downstream client is configured to receive the outputted portions of the object-based media information, and

wherein the communication node is configured to support differential services that provide different substantially guaranteed Quality of Service(QoS) transmission capabilities for the different transmission priority levels. --

III. Cancel claim 50.

3. The following is an examiner's statement of reasons for allowance: None of the prior art in record taken alone or in combination discloses all the combined limitations of a server device configured to provide a data bitstream that includes object-based media information having portions of the object-based media information associated with a plurality of different transmission priority levels and that includes identifications of the associated plurality of different transmission priority levels; at least one communication network operatively coupled between the server device and at least one client device configured to receive portions of the data bitstream that includes object-media information, the communication network being configured to provide selective differential services by discarding, within the network, one or more of the portions of the object-based information, based at least on the identifications of the associated plurality of different transmission priority levels of the portions of the object-based media information and on at least one input received from the at least one client device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the

Art Unit: 2152

issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nabil M. El-Hady whose telephone number is (571) 272-3963. The examiner can normally be reached on 9:00 - 4:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Bunjob Jaroenchonwanit can be reached on (571) 272-3913. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
